Wax Rubbing & Buffing

Over the time cars paint erodes due to the effects of sunlight, UV radiation, acid rain, salt, dirt, bird droppings and Air pollution. We give **NEW LOOK TO PAINTED SURFACES** by repairing the paint scratches, swirls marks, dullness, etc by using special rubbing compounds and imported polishes approved by the car manufacturers.

Paint Protection Coats & Teflon Coatings

Our PTFE based Polymer paint sealant creates slippery, slick barrier that protects the paint finishes, reduces fading & oxidation of paint. It repels dirt & grime, accelerates water run-off to reduce spotting, smoothness weathered surface and removes scratches giving depth to the paint.

Solitaire Ceramic Car Coating

Solitaire Ceramic Coating Product series will protect the clear coat and base colour from ultra violet rays and acid rains, preventing them from degradation and colour fading. It enabled the painted surface look as glossy as a new car even 5 years later.
